Multiplication *** | Solution |

Instructions

Objective:

Be the first player to get five numbers in a row (horizontally, vertically, or diagonally) on your Bingo card by solving the multiplication problem cards.

Materials Needed:

- Printed Multiplication Bingo cards (one per player)
- Printed & cut Multiplication Problem cards
- Bingo markers (such as buttons, dried beans, coins, etc.)
- A small container or bag to draw the multiplication problem cards from

How to Play:

- 1. Distribute one Bingo card and a set of Bingo markers to each player.
- 2. Place the multiplication problem cards in the container or bag, and mix them well.
- Have each player take turns picking a multiplication card and solving the problem.
- 4. After solving, everyone checks their Bingo card. If they have the correct answer, they place a marker on that number.
- 5. The first player to cover five numbers in a row, column, or diagonal shouts "Bingo!".
- 6. Check the player's answers to make sure they are correct. If all the answers are correct, the player wins the round.
- 7. If the answers are incorrect, the game continues until another player gets Bingo.

Optional Ways to Play:

- Full Card Bingo: Players must cover all the numbers on their card to win.
- Corners Only: Players must cover all four corners of their card to win.

Have fun practicing your multiplication skills!

10 × 4	5 × 5	2 × 8
4 × 6	7 × 9	6 × 8
5 × 6	2 × 10	2 × 9
9 × 8	5 × 10	10 × 3
2 × 3	9 × 1	8 × 6
8 × 5	8 × 3	9 × 9
3 × 7	4 × 7	10 × 5
7 × 2	6 × 5	3 × 6
9 × 2	7 × 8	5 × 7
6 × 7	3 × 5	8 × 4
4 × 5	7 × 10	4 × 9
